

# INTRODUCTION PLC PROGRAMMING & OPERATIONS

Join us for the Introduction to PLCs (non-technical) workshop.

This 8-hour course is designed with the machine operator in mind. Topics covered include basic PLC operations as they relate to fault indicators, input/output operational status, and hardware failure.

## WHEN/WHERE

- ✓ Thursday, March 13, 2025
- ✓ 8am - 5pm
- ✓ 5330 Transport Blvd.

- ✓ Lunch included

ONLY  
**\$199**
